Objective

- Seeking a challenging role as a .NET Developer where I can utilize my expertise in .NET framework and related technologies. Eager to contribute to the success of an innovative organization as a valuable member of the development team.

Profile Summary

- Highly skilled and motivated .NET Developer with 4+ years of experience in designing and developing robust software applications.
- Proficient in ASP.NET, C#, and SQL Server, with a strong understanding of object-oriented programming principles.
- Skilled in designing and maintaining web applications using MVC and Web API frameworks. Adept at collaborating with cross-functional teams and troubleshooting and debugging complex issues to ensure optimal application performance.
- Committed to staying updated with the latest technologies and continuously enhancing skills to drive innovation in software development.

Professional Experience

- **Pragmasys Consulting LLP, Pune. | Software Engineer.**

(Aug 2018 - Nov 2019)

Collaborated with cross-functional teams to gather and analyse business requirements, ensuring alignment with client objectives and delivering tailored solutions. Prepared comprehensive documentation, including technical specifications and user guides, to facilitate seamless application maintenance and support. Assist in constantly improving software development process and the development environment.

Gained product experience and technical skills through assigned role and training.

- **ProError Software Solutions, Pune. | Associate Software Developer.**

(Jan 2020 - Present)

Developed and implemented web applications using the .NET framework while adhering to best coding practices and software development methodologies. Designed and maintained scalable and high-performance web applications using MVC and Web API frameworks, optimizing application performance and user experience. Conducted unit testing using testing tools like Xunit, Moq and also debugging application to identify and resolve issues, ensuring high-quality and bug-free deliverables. Implemented secure authentication and authorization mechanisms to protect sensitive data and ensure application integrity. Collaborated with project managers and stakeholders to provide regular updates on project progress and meet project deadlines.

Skills
